

Somewhere in your projects, something is going wrong right now.
MPO shows you what — before you're caught off guard.

No IT project. No new processes. Your team works as before.

YOUR SYSTEMS

SAP ERP / S/4HANA

Oracle ERP / Primavera

Microsoft Dynamics 365

MS Project / Teams / SharePoint

Jira / Azure DevOps

ServiceNow / Procore

Excel, Emails, Minutes, PDFs

✓ MPO reads all your systems — no restrictions

Portfolio

Group-wide control · Total ROI · Strategic alignment

Programme

Cross-project · Resources · Synergies · Budget

Project

Operational control · Schedule · Costs · Risks · CRs

PHASE 01

Understand

What's really happening in your projects — not what you're being told.

Accuracy

Objective assessment — no politically filtered status reports.

Connections

Schedule delay → Budget → Resources → Follow-on phases — all at a glance.

PHASE 02

Foresee

Where your projects stand in 4 weeks — you know today.

Predictability

Final costs and timelines re-forecast daily — based on real trends.

Scenarios

Resource failure, scope change — simulated before the decision is made.

PHASE 03

Steer

Intervene before the problem becomes a crisis — with options in EUR.

Early Warning

3 weeks before escalation — visible at all levels.

Alternatives

3 options with EUR impact — decision in minutes.

YOUR RESPONSIBILITY

Act

You decide. You own it.

Decision

You choose from calculated options — based on your judgement and experience.

Feedback Loop

Your actions feed back as new data — MPO becomes more precise with every decision.

→ Your actions become the new data foundation — **MPO learns with every decision and becomes more precise.**

WHO BENEFITS

EXECUTIVE MANAGEMENT

- + Which project pays off — which costs too much
- + Escalations 3 weeks earlier on your desk

CFO / CONTROLLING

- + Final costs updated daily — no year-end surprises
- + Board reporting automated — no manual effort

PROJECT MANAGEMENT / PM

- + No more manual status reporting
- + Dependencies visible before they become a problem

PMO / PROGRAMME MGMT

- + All projects, all risks — one view
- + Resource conflicts identified 4 weeks before they arise

● **Swarm Intelligence** — Your system learns from all MPO projects worldwide. Fully anonymised, GDPR-compliant. With every new client, the system becomes more precise for everyone.

HEALTH CHECK

One-time Deep Analysis

"What's really happening in your projects right now?"

Clear diagnosis in 2 weeks. Score, action plan, cost of inaction. Fixed price — no follow-on commitment.

Single Project	EUR 9.800
Programme (2-5 projects)	EUR 18.500
Portfolio (6+ projects)	EUR 28.000

SUBSCRIPTION

Ongoing Project Control

"What happens tomorrow — next week — next month?"

Fully automatic. Updated daily. Early warnings reach you before your team reports them. The decision stays with you.

Starter · 1-3 active projects	EUR 990 / month
Pro · 4-10 active projects	EUR 2.490 / month
Enterprise · unlimited	EUR 4.900 / month

Full functionality in every tier — only the number of active projects determines the price · all prices excl. VAT

AI HANDLES Collecting data · measuring · recognising patterns · detecting deviations · calculating options

HUMAN RETAINS Judgement · Decision · Responsibility · Governance
